

March 23, 1976

\$500,000 short of making up...well it is a \$500,000 deductible so that is the money that the majority of the committee has put up. I don't think that the majority of the committee has answers beyond the fact that the \$500,000 takes care of the deductible policy.

SENATOR STONEY: Senator Marvel, did you have any idea what the evaluation of this building was prior to the time that it was damaged?

SENATOR MARVEL: No sir.

SENATOR STONEY: Does anyone know that is here? I know that Senator Marsh was shaking her head in the negative when I asked you some questions which you replied to in the affirmative, so perhaps...

SENATOR MARVEL: I would like to say one other thing. That whatever answers you don't get tonight, we will try to get for you.

SENATOR STONEY: Thank you Senator Marvel. Senator Marsh.

SENATOR MARSH: Senator Senator Stoney, the information which just came to me is that \$649,000 has been spent to date.

SENATOR STONEY: Thank you. Do you have any idea as to what the building was worth prior to the damage?

SENATOR MARSH: No, I do not.

SENATOR STONEY: Thank you.

PRESIDENT: Senator Warner.

SENATOR WARNER: Mr. President, as I notice this program, this 783, maintenance and operation which is the same program that we took out a half a million dollars a couple of days ago. I assume, and if I am in error I would hope that someone would correct me, but if we fail to enact this for practical purposes, that a million dollars out of maintenance and operation has gone out of the University fund. Now, I appreciate that we all like to stand up and assume that there is all kinds of waste money that is available, but I doubt seriously, that there..if I am correct, in my figures that there is a million dollars in the appropriation for UNL which would appear to me that this would resolve for maintenance and operation that is available without...or that can be withdrawn without seriously affecting somewhere the maintenance and operation of the physical plant on the campus. If that is true, I certainly do not think that this bill should be indefinitely postponed.

PRESIDENT: Senator Warner, isn't this a motion to advance Senator Warner?

SENATOR WARNER: Yes.
